HISTORY OF TRENHOLM STATE

H. Councill Trenholm State Technical College was created through the consolidation of John M. Patterson State Technical College and H. Councill Trenholm State Technical College in April 2000. The Trenholm Campus was designated as the main campus of the combined institutions. Both institutions were accredited by the Council on Occupational Education, which granted approval for the merger in March 2002.

Patterson Campus

The John M. Patterson State Technical School was established as a result of the 1947 passage of Regional Vocational and Trade School Act 673 by the Alabama State Legislature. The Montgomery County Board of Revenue and the City of Montgomery purchased 43 acres of land at the junction of the Southern Bypass and U.S. 231 South in 1961. The school opened on September 4, 1962. Patterson was named a technical college by action of the State Board of Education in 1974.

Trenholm Campus

H. Councill Trenholm State Technical College was authorized by the Alabama State Legislature in May 1963. Construction was completed and classes began in August 1966, with the City of Montgomery and the Montgomery County Board of Revenue contributing to construction costs. The College was named for the late Dr. Harper Councill Trenholm, a past president of Alabama State University.

H. Councill Trenholm State Technical College is a two-year public institution of higher education operating as part of the two-year Alabama College System. The organization and administration of H. Councill Trenholm State Technical College is under the supervision and direction of the elected Alabama State Board of Education and the appointed Chancellor of the Alabama College System.

The State Board of Education is composed of the Governor, as ex-officio member, and eight elected members. Alabama is divided into eight school districts and one member is elected from each district. State Board members serve four-year terms. The Governor is president of the State Board and a vice president is elected from its members annually on the second Tuesday in July.

For the purpose of assisting the State Board of Education in carrying out its authority and responsibilities for each of the colleges, the State Board appoints a Chancellor who also serves as Chief Executive Officer of the Department of Postsecondary Education. The Chancellor serves at the pleasure of the State Board of Education but it is customary for the Chancellor to have a multi-year contract.

The College President is appointed by the Alabama State Board of Education and heads the College's organizational structure. Specific areas of operation include: Student Services; Instructional Services; Development Planning/Research; Finance and Administrative Services, and Information Technology. Each of these areas functions under the guidance of a Dean or Director who reports directly to the President. The President reports to the Chancellor and is responsible for operating the college within the State Board of Education policies and all applicable state and federal laws. This organizational structure is in compliance with the Handbook of Accreditation of the Council on Occupational Education and Guidelines of the Alabama State Board of Education.

In the event that the College or the administration of the College at large is the party against whom the grievance is filed, the President shall designate a representative to appear at the hearing on behalf of the respondent.

Any party to a grievance hearing shall have the right to retain, at the respective party's cost, the assistance of legal counsel or other personal representative. However, the respective attorneys or personal representative, if any, shall not be allowed to address the hearing body or question any witness. - A. A full-time non-probationary employee terminated pursuant to this policy shall have recall rights to the position from which he/she was terminated for one (1) calendar year from the effective date of his/her termination. If the terminated employee refuses an offer of employment pursuant to this policy, his/her rights of recall are forfeited.
- B. If a comparable position becomes available within one (1) calendar year from the effective date of a full-time non-probationary employee's termination he/she may request placement in the position with a retraining probationary period of six (6) months.
- C. Should the employee accept a job offer which receives benefits, he or she is entitled to the restoration of employee benefits. These benefits include the employee's accumulated sick leave, and an option of buying back all, some, or none of the annual leave at the rate at which it was paid out at the time of the separation from the college.
- D. Reverse order of termination applies to all recalls and/or retraining. The college will notify the employee in writing of the job offer and recall rights. If the employee does not accept the job offer within ten (ten) days, the employee's recall rights are waived.
- E. Temporary employees, non-state funded employees, regular employees scheduled less than 20 hours per week, and probationary employees may be separated without following this policy and are not eligible for recall.

VII. Implication of Students First Act

In the event of a termination of employment to which the Students First Act procedures apply, there will be strict adherence to the prescribed procedures.

VERIFICATION OF CITIZENSHIP

Trenholm State Technical College is committed to meeting its obligations under United States immigration law and Beason-Hammon Alabama Taxpayer and Citizen Protection Act (the “Act”). Accordingly, Trenholm State Technical College neither hires nor continues to employ an individual who is not legally authorized to work in the United States. Moreover, Trenholm State Technical College does not discriminate on the basis of citizenship status or national origin in recruitment, hiring, or discharge.

COMPLIMENTARY PUBLICATIONS

In an effort to encourage instructors to use textbooks, publishers furnish instructors with complimentary copies of their publications. The Alabama Ethics Commission has ruled that, effective November 1987, those publications which the instructors do not keep for their professional use are to be donated to H. Council Trenholm State Technical College to avoid any possible violation of the Ethics law.

TRAVEL

Employees on official College business, as approved by the President, are reimbursed at the per diem rate of \$75.00 per day when traveling in state. Effective September 8, 2005, reimbursement rate for in-state travel is \$11.25 meal allowance for trips away from base of 6 hours – 12 hours, and \$30.00 (meal allowance plus one unit) for trips away from base for more than 12 hours.

In addition to the per diem, mileage rate for use of private automobile is set at 55.5 cents per mile. The mileage is computed as indicated on an official State of Alabama map.

Instructors assigned to teach on both campuses in the same day shall be eligible for mileage for private automobile use between campuses if a college vehicle is not available. All other travel between campuses must be pre-approved to be eligible for mileage reimbursement.

The State Board of Education authorizes presidents to approve travel for individual college employees or students traveling on college-related activities. Approval of out-of-state travel for

professional development activities for groups of three or more persons from a single college or ten or more persons from various colleges must be approved by the State Board of Education (Policy 316.01). A Prior Approval for Travel Request Form must be submitted to the employee/student's immediate supervisor at least 30 days in advance of the trip. In-State Travel reimbursement should be requested on an In-State Travel Reimbursement Form. Out-of-State travel reimbursement should be requested on an Out-of-State Travel Reimbursement Form (see Fiscal Procedures Manual). Reimbursement for out-of-state travel is paid for actual expenses as documented by itemized receipts. These forms are available on the college website.

TUITION ASSISTANCE FOR FULL-TIME EMPLOYEES

Full-time employees of state community, junior, and technical colleges and Athens State University and their dependents are eligible for tuition assistance. A dependent is defined as the spouse of any full-time employee, the unmarried, natural or adopted children of any full-time employee, residing in the household of the employee or the employee's former spouse; the unmarried stepchildren of any full-time employee, residing in the household of the employee. This waiver is not available to temporary or part-time employees or persons serving as independent contractors.

To qualify, employees must have been employed by their respective community, junior, or technical college or Athens State University or The Department of Postsecondary Education for a full academic year or at least 12 months, whichever is less restrictive, prior to the first scheduled day of class for the term for which the employee is applying. This assistance is available for courses taught by postsecondary institutions and Athens State University under the direction and control of the State Board of Education.

All eligible employees and their dependents will be allowed a waiver of one-third of the normally-charged tuition after the first year of employment, a waiver of two-thirds tuition after the second year of employment, and a waiver of full tuition after the third year of employment.

An Employees' and Dependents' Tuition Waiver Application is available in the Business Office and should be completed prior to registration for classes. A copy of the completed form must be maintained by the employing College and the College offering the courses, if different.

INSTITUTIONAL SUMMER EMPLOYMENT POLICY

Pursuant to Alabama State Board of Education Policy 603.02, the full teaching load for instructors in non-career/technical programs for a summer term is twelve (12) to thirteen (13)

credit hours per week or the equivalent, as determined by the President. The full teaching load for instructors in career/technical programs is thirty (30) contact hours per week or the equivalent, as determined by the President. Full-time instructors may be employed for less than a full teaching load, but must be paid a pro rata amount of Salary D compensation based on: (1) qualifications and experience; and (2) a full teaching load.

A full-time instructor on Salary Schedule D who is employed by virtue of a nine month contract (Fall and Spring terms) shall have first option (over part-time or temporary employees) for employment at the College in the summer term to teach in the discipline(s) which said instructor taught on a regular basis during the preceding academic year (fall and spring semesters), provided that: (1) there is sufficient student enrollment; (2) there is sufficient funding available; (3) the employee is qualified to provide the service scheduled; and (4) all other terms and conditions of Institutional Summer Employment Policy are met. In all instances tenured faculty with most seniority will be employed if they so desire, so long as the stipulations noted herein are met.

The minimum class size for the summer term is 7. Exceptions to the minimum class size of 7 must be approved on a case-by-case basis by the President. If an instructor's average summer class size falls below 7, the instructor may voluntarily opt to be placed on a nine (9) month employment contract, with summer employment as an additional three-month contract to be awarded by the President; or, in the alternative, the instructor may be placed on temporary assignment to perform such duties as may be determined by the President to fulfill the summer months covered by the employment contract. The President may opt not to offer courses in the program in which the average class size falls below 7 during the summer term, and may make such other arrangements as deemed appropriate.

General education courses will remain open as long as possible to accommodate students attempting to schedule a full-time summer load. General education courses will be the last courses closed due to insufficient enrollment.

Intermediate level courses will be reviewed first to determine classes with insufficient enrollment. Intermediate level courses will thus be the first courses closed in the event of insufficient class enrollment.

Identical courses (same course number and title) scheduled at different times by the same instructor may run with a total of 20 students in the two courses. It is unnecessary to change individual students' schedules to achieve a minimum of 7 students in two identical courses taught by the same instructor.

Courses having an enrollment of 20 or more students may not be split into two sections to achieve load. If an additional section of a given course is required, instructors should notify the dean of instruction who must secure approval of the President.

Except for those associated with the allied health fields which are otherwise required by accrediting entities, all practical, cooperative education, internships and other similar instructional experiences will be treated as experimental or manipulative laboratories for purposes of teaching load, as determined by the President.

For purposes of summer employment, per Alabama State Board of Education Policy 608.01 and subsequent guidelines, “equivalent” load for department chairs and directors shall be one (1) credit hour and one (1) contact hour.

No overload salary will be paid for work performed during the summer term.

Requests for exceptions to the summer employment policy must first go to the dean of academic services or the associate dean of technical education. The appropriate instructional dean will evaluate the request. Requests for exceptions must be approved by the President. Requests for exceptions for graduating students will be based on a review of the students’ transcripts. Exceptions will not be granted in cases involving the enrollment of students who have dropped out and dropped in, and/or have previously passed up an opportunity to take courses. A single or a few graduating students in a course is not justification for an exception to be granted.

SALARY SCHEDULE

A salary schedule for administrators, faculty, and support personnel is established annually by the Alabama State Board of Education. Salaries for faculty are based on years of experience and the type of certificate held by the instructor. Salaries for administrators and other personnel are based on job title and number of years’ experience.

METHOD OF PAYMENT FOR NINE MONTH CONTRACT

The salary for the academic year (nine-months) or term may be disbursed in equal monthly payments for convenience in bookkeeping under the following conditions:

Persons beginning or ending employment at a time that does not coincide with the regular beginning and ending of the academic year shall be paid on a daily rate basis for the actual number of working days they are on duty.

The daily rate for the nine-month term (academic year) shall be determined by dividing the nine-month salary by 175 working days (exclusive of holidays). This same rate is also applied to compute payment of partial summer employment (number of days times daily rate). Instructional personnel are not paid for holidays or for breaks between terms. Therefore, a person terminating employment before his/her contract is fulfilled may receive a reduced "last payment" or be required to reimburse the Alabama Community College System for salary overpaid. Certain inequities exist when the annual salary is computed on the basis of 260 workdays for full-time non-instructional personnel.

CERTIFICATION OF INSTRUCTIONAL PERSONNEL

All full-time instructors must possess the appropriate credentials for their teaching assignment prior to employment unless otherwise specified. Instructors are required to present all documentation required in the postsecondary faculty credential standards to the President's designated representative prior to employment. Instructors may be employed on a full-time or part-time basis.

FACULTY QUALIFICATIONS

All faculty employed in a faculty position before December 14, 1989, shall have the choice of advancing under the provisions of the certification requirements in place before December 14, 1989, or under the provisions of the new standards. All faculty employed in a faculty position on or after December 14, 1989 shall meet the certification requirements in place at the time of employment. A copy of the certification requirements can be found in the Dean of Academic Services' office.

All points earned for rank change for a subsequent year must be earned by September 1. The application for the change must be submitted to the President before September 30.

OVERTIME COMPENSATION

H. Councill Trenholm State Technical College has adopted a policy and practice that complies with the overtime provisions of the Fair Labor Standards Act of 1938, As Amended.

Copies of the detailed College policy on overtime may be reviewed in the Business Office.

This policy provides for the granting and accrual (up to 240 hours) of compensatory time off for authorized overtime hours worked beyond 40 hours in any workweek to only those employees for which such compensatory time off is required to be granted by the Fair Labor Standards Act of

1938, As Amended. Individuals earning compensatory time may choose to be paid at 1½ times their normal hourly rate.

Such compensatory time off is not mandated by the law as to all employees. For example, instructors, librarians, counselors, most administrative personnel and some support personnel are generally not entitled to receive compensatory time off for such overtime. The College has classified each employee as eligible (non-exempt) or ineligible (exempt) to receive compensatory time. Please contact the Human Resource Office should you desire to inquire of your individual classification for such purpose.

If you are eligible to receive compensatory time off, College policy requires that certain written records be maintained as to your hours worked in each workweek. No employee eligible to receive compensatory time off is to work more than 40 hours in any workweek without prior authorization from the appropriate Dean. An Over-Time/Compensatory Time Earned Form must be completed, approved and submitted to the Business Office before any credit for overtime may be given. On this form, the employee must indicate whether he/she intends to take compensatory time in return for the additional work hours or whether he/she prefers to be paid at the 1½ times normal hourly rate. When compensatory time off is to be taken, a Leave Request Form must be completed, indicating this is compensatory time, and submitted for approval the same way any other type leave would be requested.

SUBSTITUTE INSTRUCTORS

It is the policy of H. Councill Trenholm State Technical College not to employ substitutes for instructors during routine day to day absences from the College due to illness, personal leave or absence while on College business, etc. However, in cases where it becomes necessary for an instructor to be absent for an extended period of time, which would be detrimental to the program and the progress of the students, every effort will be made by the administration to employ a qualified instructor temporarily.

In every case where it becomes necessary for an instructor to be absent, it his/her responsibility to notify the President of the College or designee. Each full-time instructor should submit to the Dean of Academic Services or Associate Dean of Technical Education and Industrial Relations, the names, addresses and telephone numbers of the qualified individuals who may serve as a substitute instructor.

DUTY DAYS

Full-time Instructors

Full-time instructors employed on a nine-month contract shall work a minimum of 175 days. Full-time instructors employed on a nine-three contract shall work a minimum of 229 days. Those employed full-time for the summer term shall work a minimum of 54 days.

Full-time Non-instructional Personnel

The Alabama Community College System colleges shall be open all days except Saturdays, Sundays, the ten (10) official holidays and five (5) other days designated in the official approved calendar. Student Forms and Procedures

STUDENT RECORDS

The Director of Admissions and Records supervises the handling and maintenance of student records. College officials having access to permanent student files and records are all administrative and Student Services personnel. Permanent student files and records are maintained on a document imaging system and backup files are stored, maintained on disk and kept in a fireproof vault. The Office processes student applications, advises students of available program offerings, disseminates appropriate brochures, literature, etc., to interested students, verifies student qualifications for specific certificate and degree programs, evaluates transfer credit, and handles state residency verifications. This office provides transcripts of students academic records (official and student copies), facilitates registration each semester for credit classes, verifies and certifies student enrollment status. In addition, the office processes grade changes, certificates and degrees, and changes in student information. Specific registration information is contained in instructions distributed before each semester begins. Confidentiality of student records is maintained according to the Alabama State Board of Education and Commission of the Council on Occupational Education guidelines and legal mandates. Policies concerning student record access, review, and content challenge are detailed in the *College Catalog*.

PROVIDING FORMS OF IDENTIFICATION:

Effective spring semester 2009, Alabama State Board of Education policy 801.01, Admissions General, requires that applicants to Alabama Community College System institutions provide one primary form of identification **OR** two secondary forms of identification prior to enrollment.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT OF 1974 (FERPA)

TRANSCRIPT POLICY

In accordance with the provisions of Public Law 93-380, the Family Educational Rights and Privacy Act (FERPA *also known as the Buckley Amendment*), the College adheres to the practices established by the Federal Family Educational and Privacy Act. The Office of

Admissions and Records will release a transcript of a student's academic record only upon written request of the student. The request for the transcript release must bear the signature of the student along with identifying information. Official transcripts are issued to the student in a sealed envelope stamped, "Official Transcript Void if Seal Broken," to the institution, or to the agency listed on the request. Students wishing to send transcript requests by fax must furnish the following information: full name and any previous names under which enrolled, social security number, approximate dates of attendance, school or organization where transcript is to be forwarded, daytime phone number, and a COPY OF DRIVER'S LICENSE (or an officially recognized form of identification).

REGISTRATION

Pre-registration and Open Registration are held during dates scheduled prior to the beginning of each term. All new students should meet with a new student advisor and returning students should meet with their program advisor (even if registering via web) each semester. During the scheduled advising period (usually the week prior to Pre-registration), currently enrolled students should meet with an advisor in their program of study to receive a printed schedule of their courses. Approval is required from the Dean of the Academic Services/Associate Dean of Technical Education for students planning to enroll for more than 19 credit hours. Advisors will input the course information into the College computer system and a computer-generated schedule is produced that indicates the amount of tuition and fees due. All schedules must be processed in the Bookstore, even if no payment is due, in order to complete the registration process and receive a receipt. Schedules that have not been validated by the deadline date will be voided and classes will be deleted. During the registration days immediately preceding the first day of class, extended hours are in place. All faculty members are expected to adjust their schedules to ensure their availability for advising and registering students. Student Services and appropriate Business Office personnel will also be required to work an adjusted schedule in order to accommodate student registration.

DEGREE PLAN (PLAN OF STUDY)

The process of advising students carries with it the responsibility of assisting students in selecting requirements in a planned sequence that will lead to graduation in a time frame that meets the requirements as advertised in publications or that meets the stated needs of the student. The Degree Plan OR Plan of Study will provide documentation that the advisor and the student

have planned the sequence of courses. Any changes from the published degree plan must be approved by the Dean of Academic Services or the Associate Dean of Technical Education and Industrial Relations. Students should be advised that they might not be able to graduate as planned if they do not follow the sequence of courses as advised. A degree plan is to be maintained and updated each term for each student, showing the requirements for the selected award and the courses completed. When a student completes the program, the degree plan should indicate that all courses have been satisfactorily completed.

COURSE DROP/ADD

Students may add and/or drop classes during the official drop/add period. The drop/add period is the first three days of Fall and Spring semesters and the first day of Summer term. The Drop/Add Form is available in the Office of Admissions and Records. The form must be completed and taken to Office of Admission and Records to be processed. Depending on the schedule change, students may or may not be required to have their new schedule validated.

CLASS WITHDRAWAL AFTER DROP/ADD PERIOD

Students intending to withdraw from an individual class or completely withdraw from the College must obtain an Official Class Withdrawal form or an Official Total Withdrawal form from the Office of Admissions and Records. The form must be completed and signed by the student, the appropriate instructor(s), and returned to the Office of Admissions and Records for processing. Students who withdraw from a course after attending 70% of the term when the student is failing the class at the time of withdrawal, will receive a grade of WF. If a student officially withdraws from a course after attending 70% of the term and is passing, a grade of WP must be assigned. If a student is unofficially withdrawn, initiated by the instructor, from a course for breaking the attendance policy prior to 70% of the term, a grade of “W” must be assigned. Refer to the Semester Class Schedule for the specific 70% date (listed as “Last Day to Withdraw Without Any Academic Penalty”). If a student never attended or the class is cancelled, the class will be deleted and no grade will be assigned. If the student is receiving financial assistance, the form must also be signed by a Financial Aid Official. All withdrawal forms must be on file in Office of Admissions and Records before the final examination in the class is given.

FINANCIAL AID CERTIFICATION OF ATTENDANCE FORM

In order to charge books to a financial aid source, students must present to the Bookstore

Cashier an Attendance Verification form which has been signed by each of the students' instructors. This form verifies that the student has attended class, making financial aid eligible to charge books to their available credit balances.

FINANCIAL AID NON-ATTENDANCE LIST (NO SHOW ROSTERS)

To be eligible to receive a Federal Pell Grant credit balance refund, students must attend each of their classes at least once. To identify the students who have not attended classes and are not eligible to receive a refund from their financial aid credit balances, "No-Show" Roster are created and sent to all instructors after the Drop/Add period each term. A second "No-Show" Roster is created three days later and sent once again to the instructors to verify any students who were "No Shows" and may not have been reported on the first Roster. These rosters must be completed and submitted to the Office of Admissions and Records electronically by the specified date, even if no students are listed. Instructors are required to submit "No Show" Rosters by the published deadline. These no-show lists are primarily for financial aid purposes. However, students who are reported on both "No Show" Rosters will be unofficially withdrawn and removed from the class roll by the Director of Admissions and Records in collaboration with the Director of Financial Aid.

TRADE READJUSTMENT ASSISTANCE CLASSROOM TRAINING TIMESHEETS

The Trade Readjustment Assistance (TRA) Classroom Allowance by Worker in Training Timesheet is used to report attendance for students receiving Trade Readjustment Act (TRA) sponsorship. Students receiving this benefit must complete and submit weekly a timesheet to the Financial Aid Office in order for attendance to be verified to the Alabama Unemployment Compensation Agency.

GRADE REPORTS

Instructors are required to submit grades electronically or manually at the end of each semester. All instructors are asked to use GradeQuick for the purpose of recording grades. Grades are submitted to the Office of Admissions and Records by the working day following the end of each term. Instructors must also submit Class Attendance Rosters, Earned F Verification forms, I Contract (with appropriate signatures) and Grade Change forms for completion of I Contracts to the Office of Admissions and Records. Grade reports are processed and posted on the Internet. Students have the ability to access their grades via the Internet. Grade reports are

not mailed to students.

GRADE CHANGES – GET APPROVAL

If a student has reason to believe that the letter grade received in a particular course is incorrect, the student must make an informal effort to correct the error with the instructor who issued the grade. If the informal efforts of the student and faculty member have not produced a satisfactory resolution, a formal appeal is in order. Refer to the Student Handbook and follow the Formal Grade Appeal Process. Unless extenuating circumstances exist, the grade change must be made within one semester after the grade was initially assigned.

If it is determined that the grade on the transcript is incorrect, the instructor must complete a Grade Change Request form and submit it to the Dean of Academic Services/Associate Dean of Technical Education for approval. After approved by the appropriate Dean, the form is submitted to the Financial Aid Office and then to the Office of Admissions and Records for data entry. The approved form will be placed in the student's file. The student may request a copy of his or her transcript to verify the grade change.

“I” CONTRACT

An "Incomplete Grade Contract" form must be signed by the student, instructor, division chair, and the appropriate Dean. The instructor is responsible for securing all signatures required on this form before submitting to the Office of Admissions and Records along with the Class Attendance Roster. Students are not allowed to secure these signatures.

An incomplete grade ("I") does not count toward course work completed and is not counted as a course attempted; therefore, it does not negatively impact the incremental measurement of progress. **A GRADE OF "I" - INCOMPLETE - IS NOT COUNTED IN HOURS ATTEMPTED.** However, the grade that replaces the "I" is counted in hours attempted and hours earned once the “I” is removed. An "I" grade is intended to be only an interim course grade. Unless the deficiency is made up within the following term, the "I" automatically becomes an "F". When the deficiency has been corrected, the instructor should submit a Grade Change Request form with a copy of the signed “I” contract to the Dean of Academic Services/Associate Dean of Technical Education for approval. After approved by the appropriate Dean, the form is submitted to the Financial Aid Office and then to the Office of Admissions and Records for data

entry. The approved form will be placed in the student's file. The student may request a copy of his or her transcript to verify the grade change.

TRANSFER/ALTERNATIVE CREDIT

During a student's first term of enrollment, he or she must have official transcripts from each college he or she has previously attended, mailed to the Office of Admissions and Records. Upon receipt of these transcripts, the Admissions Office will evaluate them for academic course transfer credit and complete a Transfer/Alternative Credit Approval form listing the academic courses which are acceptable for transfer credit. If a student's transcript contains technical course credits which may be applied to his or her degree plan at this college, a copy of the transcript will be forwarded to the respective instructor or advisor for evaluation. Instructors' recommendations regarding transfer of technical course credit must be submitted to the Dean of Academic Services/Associate Dean of Technical Education for final approval. After transfer credit information is entered into the computer, a copy of the student's transcript is given to his or her advisor to update the degree plan. Students who believe they have already mastered the material of a particular course may request an evaluation for alternative credit. The costs and guidelines of such credit are outlined in the *College Catalog*.

INTENT TO GRADUATE

At the time of registration for the term in which a student will complete his or her graduation requirements, the student must obtain an Intent to Graduate form from the Office of Admissions and Records. The form should be completed by the student, approved and signed by the student's advisor, and submitted to the Office of Admissions and Records with the student's degree plan, which should be obtained from his or her advisor. Upon receiving the student's degree plan, Admissions personnel will direct the student to the Bookstore to pay a graduation fee, if required. The Bookstore personnel will give the pink copy of the form to the student. The white copy of the form will be given to the Office of Admissions and Records, the yellow copy will be given to the student's advisor, and the gold copy will be retained by the Bookstore.

FOLLOW-UP

Instructors are responsible for maintaining a follow-up record for each student who completes a program, withdraws, or stops attending prior to completing a program. Information concerning job placement, which includes place of employment, name of employer, job title, and

job description, is to be collected for each student who withdraws or stops attending. Annually, instructors will complete placement reports and an alternative completions report to illustrate program viability. Please refer to the Student Assessment, Placement and Follow-up Plan for further information.

STUDENT SAFETY

SAFE ENVIRONMENT

All school personnel-administrators, maintenance staff, instructors, and students will be obligated to contribute their individual effort in order to develop, insure, and maintain a safe environment. Voluntary compliance is expected; however, the Safety Committee will serve in a supervisory capacity to assure continuity of performance and the continuation of a viable program. The Safety Committee will determine who inspects, when to inspect, how to inspect, and will conduct a follow-up study to evaluate progress. In addition to the safety information contained herein, all employees should be familiar with the Campus Safety and Security Procedures document located in the Forms section of the College intranet.

GENERAL PHYSICAL CONDITION

It is the responsibility of the institution's maintenance personnel to supervise the upkeep of the school's building and grounds. Their efforts are augmented by student workers and the maintenance performed by the instructors within the individual departments.

The institution's maintenance personnel will devote attention to the condition of stairways, passageways, aisles, floors, walls, windows, ceilings, proper illumination, ventilation, and temperature controls.

The instructors will insure that their individual or departmental machines, benches, and other equipment are arranged to promote good safety habits. Further, attention will be devoted to insure that fire extinguishers are the proper type, adequately supplied, and properly located and maintained. Both the instructor and students are to be made aware of the location of fire extinguishers and their proper use.

In conjunction with fire considerations, exits are to be properly identified and of adequate number. Evacuation procedures are to be posted in conspicuous places, regularly referred to for student instruction, and practiced on occasion.

Housekeeping

Housekeeping is an important aspect of the continued effect of maintaining a safe environment. Hazards must be discovered and corrected through regular and frequent inspection

if an optimum environment is to exist. It is of primary consideration that personnel and students are kept free from accident, the property is kept safe, and that legal retribution not confront this institution or its staff. Good housekeeping will largely contribute to the achievement of these goals.

A complete list of housekeeping duties will be found in the National Standard School Shop Safety Inspection Check List; however, it is absolutely imperative that machines, tools, and materials be maintained in an orderly manner, and that instructor personnel be familiar with this document. Flammable and dangerous materials are to be given highest caution. They are to be properly stored, properly utilized, and properly identified to eradicate any chance of possible misuse.

Equipment

Equipment will be operated in accordance with standard operational techniques, and in accordance with school rules, maintained in a high state of readiness, and procedurally eliminated when no longer of safe and utilitarian value.

Machines will be situated to minimize hazards from other equipment or passing personnel. Danger zones will be properly indicated and moving parts will be protected by permanent enclosure. Further, close supervision will be imposed on student operators, with no student permitted machine usage without an instructor in the immediate area, and all machine or equipment control switches must be readily accessible for the operator's emergency use.

Again, attention will be given to machine maintenance, storage of component parts, and daily cleaning of the equipment. Complete and continued instruction must also be ongoing to assure machine safety.

Electrical and Gas Installation

Utility installation is intended to be in compliance with applicable building codes. Usage will comply with established safety rules, and regular inspection will attempt to alleviate undue hazard. Electrical and gas usage items are of primary consideration.

Personal Protection and Instruction

Personal protection must be afforded the highest priority in any safety consideration. A carefree attitude will not be tolerated, but should be dispelled by the arousing of the student's

interest in safety, by proper instruction, and by the enforcement of established shop or departmental safety rules and regulations.

Each shop and department has developed and posted its individual safety rules. These rules cover more than personal protection, but as a guide, include the following considerations:

1. No one will be allowed to perform any activity in the shop or department unless an instructor is present.
2. Students other than scheduled class members desiring to work in a shop or department must secure permission from the instructor in charge.
3. Students will not be allowed to use tools, equipment, or supplies without prior instruction and proper authorization. (Students absent during instruction and demonstration periods must obtain proper instructions before performing that activity).
4. Any injuries sustained during instructional time must be reported immediately to the instructor in charge.
5. Damages to tools and/or equipment must be reported to the instructor as soon as possible.
6. Shop attire that must be used while performing instructional activities include the following:
 - a. Tucked-in shirt with short or rolled sleeves.
 - b. Long pants.
 - c. Leather shoes.
 - d. Approved safety glasses or goggles.
 - e. Cap, band, or net to confine long hair.
7. Individual responsibility by the student must be assumed for the following:
 - a. Keeping work area clean and in order.
 - b. Replacing tools and equipment in designated storage area.
 - c. Returning fuel, oil, and solvent containers to storage area.
 - d. Replacing manuals on shelves.
 - e. Placing soiled rags in proper containers.
 - f. Storing project and unfinished work properly.
 - g. Disposing of unwanted fuel, oils, paints, and solvents in drain cans.
 - h. Removing unsafe clothing or jewelry while performing instructional activities.

- i. Reporting any unsafe conditions existing in the area.

The instructor is responsible for teaching safety, for posting safety rules, and for determining that these rules are given allegiance.

Safety posters, lectures, tours of industrial plants, and audio-visual aids are only a few of the resources available for the enhancement of the safety instructional program.

It is the responsibility of the student to know and practice all safety requirements.

FIRST AID

First aid is the immediate and temporary care given to a person who has been injured or has suddenly taken ill. It includes self-help and shop care if medical assistance is not available or is delayed. It includes well-selected words of encouragement, evidence of willingness to help, and promotion of confidence by demonstration of competence.

As published by the American National Red Cross: "First aid begins with action, which in itself has a calming effect. If there are multiple injuries or if several persons are hurt, priorities must be set. Enlist the help of bystanders to make telephone calls, to direct traffic, to keep others at a distance if necessary, and perform similar duties...provide life support to victims with life-threatening injuries, then care for those with less critical injuries. Telephone or have someone else telephone the appropriate authorities regarding an accident...The circumstances surrounding the accident should be a guide as to whom to call. Always have a list of emergency numbers available; if the numbers are not readily available, ask the telephone operator for assistance. Describe the problem; indicate what is being done, and request the assistance needed, such as an ambulance, the fire department, the rescue squad, or utility company personnel. Give your name, the location of the accident, the number of persons involved, and the telephone number where you can be reached. Do not hang up the receiver until after the other party hangs up because he or she may wish to clarify some information."

First aid kits are readily available throughout the institution. These kits are to be kept in a high state of readiness, and a qualified individual for the administering of first aid is to be available.

Accident Records

In the event of an accident, in which an individual is injured, it is the responsibility of the instructor concerned to submit an Accident/Injury Report Form. The accident report form is so designed that proper procedure is outlined for the treatment of serious injury. The Accident/Injury Report Form is of further value, in that accidents will be necessarily reported to the proper administrative authority, and written record will be available for statistical studies. Accident forms are available on the College Intranet.

Emergency Health and Safety Procedures

Safety is a primary concern of H. Councill Trenholm State Technical College. In the case of a student accident or sickness that requires emergency assistance, the college faculty member or staff member responsible for the activity or, if that individual is not immediately available, a faculty or staff member in the area, shall:

1. Call 911 and give appropriate information.
2. Notify the applicable dean of the accident or sickness.
3. Keep other students or persons away from the injured person and do not administer any internal medicine.
4. Control the situation to avoid student exposure to a dangerous situation.
5. Remain with the victim until qualified emergency technicians arrive and take control of the situation.
6. Fill out accident/injury report within 24 hours. If the ill or injured person is a student, turn original report in to Student Services and make a copy for your files. If the ill or injured person is an employee, turn original report in to Human Resources.
7. The Dean of Student Services or the Human Resources Director will forward the accident/injury report to the Campus Safety Coordinator for investigation of accident. The Campus Safety Coordinator will forward a final copy of the report to Human

Resources.

Fire Escape Routes and Severe Weather Procedures

Due to the layout of the H. Council Trenholm State Technical College campuses and the separation of buildings housing the various programs, it is necessary to have a Fire Escape Route and a Severe Weather Cover Procedure for each building. Each classroom and shop area will have the Fire Escape Route posted on the bulletin board or other conspicuous place in clear view. The Alert Notification System will be used in the event of fire or severe weather in order to properly notify all faculty, staff, and students. Messages will also be sent via SchoolCast to the email addresses or phone numbers of all individuals who have provided contact information for this purpose.

Regular drills will be carried out in order to keep everyone in all areas of the campus familiar with the proper procedures to follow in case of a fire or severe weather outbreak. Administrative Personnel will monitor all drills to ascertain critical timing and that correct procedures are followed. Log sheets will be kept indicating time and date of fire drills and severe weather practice drills. All drills will be unannounced and supervised by designated building captains.

See Severe Weather Procedures - Section VIII - Page 6 of this Handbook.

Fire Escape Procedure

In the event of necessary evacuation, all personnel will have received prior and thorough instructions in fire escape procedures. If an UNCONTROLLABLE FIRE should occur, faculty, staff, and students will be notified via the Alert Notification System and the following procedures will be followed:

1. Secure all machines in operation.
2. Make no attempt to extinguish the fire - GET OUT!
3. Move to appropriate exit as designated by wall charts located in all institutional spaces.
4. Do not run, push, or panic.
5. Proceed to area designated by arrows on wall charts.
6. Be cautious of vehicular traffic.
7. Students should immediately report missing individuals to their instructor.

8. Do not reenter the structure until so authorized by the Building Captain or Fire Department personnel.
9. Instructors should remain with their class at all times.
10. Do not in any way hinder the efforts of the Fire Department.

Fire Escape Plan

Immediately report departmental fires to the Fire Department. The telephone number of the Montgomery Fire Department: Dial 9 - 911.

A copy of the fire escape plan is posted in all departments. It is the responsibility of the individual instructor to perform specific duties as follows:

1. Insure that all students are instructed in fire escape procedures.
2. Insure that all students are safely out of the structure.
3. Secure all windows and doors in the assigned instructional area.
4. Insure that all machines are secured.
5. Account for all students and restrict them to assigned areas until further instructed.
6. Ascertain that the students do not obstruct fire-fighting efforts of the Fire Department.

Severe Weather Procedures

Upon notification of severe weather from the National Weather Service, personnel will be alerted by the Alert Notification System. The following procedures will be followed:

1. Proceed to area designated on wall charts located in all institutional spaces.
2. Do not run, push, or panic.
3. Do not leave designated area until "ALL CLEAR" is given via Alert Notification System.
4. Instructors should remain with your class at all times.

DAILY WORK SCHEDULE

Administrative, Professional, and Support Staff

The work schedule for administrative, professional, and support staff shall include forty clock hours per week. The work schedule excludes the lunch period. This schedule will be approved by the President.

Full-time Instructional Staff

Full-time instructional staff shall follow the work schedule as indicated on the Faculty Load Form approved by the Dean of Academic Services/Associate Dean of Technical Education and Industrial Relations. The work schedule shall include 35 clock hours per week. The student contact hours for technical instructors shall not exceed 30 hours per week. The credit hour load for general education faculty shall not exceed 16 credit hours during Fall and Spring semesters and 12 to 13 credit hours during the Summer Term.

Part-time Faculty/Staff

All part-time members of the faculty and staff shall receive an assigned work schedule from their immediate supervisor or the President.

Time and Attendance

The part-time staff must submit a Time Sheet as directed by the Business Office. This process will allow the Business Office to have the payroll ready on the last week day of the month.

Faculty and Staff Absences

If a full-time faculty or staff member must be absent for any reason, he or she must complete a Leave Request Form and receive prior approval from the immediate supervisor and the Dean. In the case of an anticipated absence, an instructor must make arrangements for each class and must inform his or her Division Director and the Office of the Dean of Academic Services/Associate Dean of Technical Education and Industrial Relations.

If a part-time faculty member must be absent for any reason, he or she must notify

the Program Coordinator or Division Director, the Evening Supervisor or the Office of the Academic Dean/Associate Dean of Technical Education and Industrial Relations.

TEACHING LOAD

Each instructor's teaching load is assigned each term in accordance with State Board policy 608.01.

OVERTIME POLICY

The policy of H. Councill Trenholm State Technical College concerning overtime compensation is as follows:

When a Non-Exempt Employee May Be Required to Work Overtime

A Non-exempt employee shall be required to work more than forty (40) hours in any workweek if (a) the college directs the employee to do so, and (b) an "emergency condition" exists. For purposes of this policy, an "emergency condition" exists if, in the opinion of the College President, one or more of the following is present:

1. A situation which endangers or potentially will endanger the physical safety of property for which the College is ultimately responsible, and the performance of overtime work would, or reasonably may be expected to, contribute to the reduction of said danger or perceived danger;
2. A situation in which the performance of necessary overtime work will increase the effectiveness of College registration, enrollment, orientation, graduation, or commencement activities. However, under such circumstances an employee shall not be required to work overtime unless the College previously has taken reasonable action to obtain the services of other qualified employees who are willing and able to perform the work required of the employee;
3. A situation in which the performance of overtime work will, or may reasonably be expected to, significantly contribute to the success of College goals or efforts to obtain a college or program accreditation from recognized accreditation agencies or organizations. Under such circumstances, the employee shall not be required to work overtime unless the College previously has taken reasonable action to have the work performed during normal work hours (that is, reasonably good planning would not ensure the timely performance of the work so as to avoid an "emergency")

concerning accreditation); and

4. A situation in which the performance of overtime work is reasonably necessary in order for the College to respond to the legal directives of governmental agencies or others which are external to the State Board of Education, Department of Post-secondary Education, or any Alabama State College, i.e., assistance in retrieving court ordered documents.

B. Working Extra Hours in a Day

An employee is not automatically entitled to overtime pay, either in the form of pay or compensatory time off, for hours worked in a day beyond those normally worked in such a day. However, under those circumstances described in the "emergency conditions" a non-exempt employee may be entitled to over-time compensation for hours worked in excess of forty (40) hours during a workweek, if correct procedures are followed.

C. Options for Compensation for Overtime Hours Worked

1. When the President or an authorized designee has determined that a need for overtime work exists, he/she shall make a request to the employee to work overtime. Once the employee has agreed to perform overtime work, then it is important to note that at such time the President/designee and the employee must agree as to how such overtime work will be compensated. There are three options available as follows:
 - a. The employee will receive compensatory time at 1 ½ times the rate of actual overtime hours worked. For example: if an employee works 4 hours of overtime, he/she will receive 6 hours of compensatory time which can be used at the employee's discretion.
 - b. If an employee works hours beyond the normal workday and then chooses to decrease hours worked in a workday later in that same workweek, he/she may do so but only on an hour-for-hour basis. The reason is that the employee has not worked over forty hours for the workweek and, therefore, the 1 ½ times rate of compensatory time is not applicable.
 - c. The employee may elect to receive payment for compensatory time at 1 ½ times the regular hourly rate of pay.

D. Procedures:

1. If an employee elects to receive compensatory time off, the employee shall be permitted to use accrued compensatory time after it is requested if the operations of the College are not unduly disrupted. When compensatory time off is taken, a Leave

Request Form must be completed, indicating this is compensatory time, and submitted for approval the same way any other type leave would be requested.

2. The maximum compensatory time which may be accrued, shall be 240 hours (160 hours actually worked).
3. All earned overtime/compensatory time is required to be pre-approved on the proper form and signed by the employee and supervisor. The form is then forwarded to the Dean of Academic Services/Associate Dean of Technical Education and Industrial Relations for approval prior to any hours being worked. If an employee works more than required 40 hours per week without pre-approval the time over the required 40 hours will be considered as a donation to the College.

The Business Office will maintain all leave forms and a current record of each employee's overtime/compensatory time.

However, for purposes of applying accrued sick leave as credit for retirement purposes, the limit for credit shall be one day per month of employment. According to the situation, sick leave should be reported as soon as it is known to be needed or immediately after it is used.

The college administration has a duty to assure a minimal disruption of the College and continuity of instruction to the student. After five (5) days of absence due to illness, within a thirty-(30) calendar-day period, the president or designee may require that an employee furnish a medical certificate by a qualified physician acceptable to the institution. This is to be done at the expense of the employee. Sick Leave will be granted only for the following reasons:

SICK LEAVE BANK

Upon the request of ten percent (10%) of the full-time employees of an institution, the president of the institution shall establish a sick leave bank plan for full-time instructional/professional/administrative employees and for full-time support employees, either jointly or separately. The employees, using a secret ballot process, shall make the decision of whether the sick leave bank will be joint or separate.

A. Purpose

However, if the member later qualifies for catastrophic sick leave, donated catastrophic sick leave days may be used to repay days owed to the sick leave bank to the credit of the affected member.
7. At the beginning of each leave year, or upon employment of a new employee, the appropriate number of sick leave days shall, upon application of the employee, be credited to the employee's account, in order to enable the employee to join the sick leave bank if the employee does not have the minimum number of sick leave days to enable the employee to join the sick leave bank.
8. The Committee must decide whether or not to allow employees who have previously failed or refused to join the sick leave bank the opportunity to join upon deposit of the requisite number of sick leave days.
9. The Committee shall have the authority to establish an annual enrollment period for participation in the sick leave bank.
10. The college business office shall maintain records of all member contributions to the bank, withdrawals from the bank, and the status of the bank. Reports shall be provided on a timely basis at the request of the Committee, the President, or the Chancellor.

12. In cases where the contributor has been incapacitated, his or her agent or representative, designated as such in writing, may apply to the Committee on behalf of the contributor. In case of mental incapacity of a contributor, the designated agent or representative must be a person who, by law, may serve in such capacity.
13. At the discretion of the Committee, and upon the request of the applicant, a loan may be granted retroactively to the fifteenth (15) day of the absence.
14. Resignation from participation in the sick leave bank may only be made in writing on the proper form to the Committee with a copy to the president of the College.
15. Questions and information requests concerning the sick leave bank should be directed to the Director of Human Resources.

D. Catastrophic Sick Leave

1. With regard to catastrophic sick leave, employees, at their discretion, may donate a specific number of days to the sick leave bank to be designated for a specific employee for use against a catastrophic illness. A donating employee shall not be required to donate a minimum number of catastrophic days to the sick leave bank. The recipient employee may use catastrophic sick leave days for himself or herself or for other covered persons as provided in 16-1-18-1. Before sick leave days for a catastrophic illness may be used by a recipient employee, the recipient employee shall have first exhausted all sick and personal leave.
2. Donated days shall become available for use by the particular employee who shall not be required to repay the days. Any employee who donates sick leave days to the sick leave bank for a particular employee suffering a catastrophic illness shall be clearly informed that the donated days are not to be recovered or returned to the donor. If an employee does not require all of the days donated to the credit of the employee, the days shall revert to the credit of the employee(s) who donated the days in accordance with the guidelines adopted by the Committee.
3. No employee may donate more than thirty (30) sick leave days, not including the

initial deposit of five (5) days, to the sick leave bank for the catastrophic sick leave of any one employee.

Earned sick leave, not to exceed the limits as established by Alabama State Board of Education policy for institutions under its control, may be transferred from one public institution to another.

PERSONAL LEAVE

Up to five (5) days of personal leave with pay will be granted to full-time instructional personnel and up to two (2) days for all other full-time personnel during any academic (September - August) year. With regard to Salary Schedule H employees, a day is defined as four (4) hours for persons paid from Salary Schedule H-20, five (5) hours for persons paid from Salary Schedule H-25, six (6) hours for persons paid from Salary Schedule H-30, and seven (7) hours for persons paid from Salary Schedule H-35. Personal Leave not taken will be converted at the end of the leave year to sick leave. Election by the employee otherwise requires timely written notice by the employee to the institution.

MATERNITY LEAVE

A full-time employee will be granted up to a maximum of one (1) year of maternity leave without pay. Persons on maternity leave without pay resulting from pregnancy will be paid for earned sick leave upon request. Persons taking maternity leave to stay at home with adopted

children will not be paid for earned sick leave. The tenure status of persons on maternity leave will not be affected.

MILITARY LEAVE

All full-time employees are eligible for paid military leave of up to 168 hours per calendar year in the event of being called to active duty. During the period of paid military leave, the respective employee shall continue to accrue all employment benefits, including sick and annual or personal leave, as well as paid medical insurance benefits. Once available paid military leave is exhausted, the employee may take available annual or personal leave and continue to receive all employment benefits.

Once the employee has exhausted all available leave, the employee may be considered to be on military leave of absence without pay. Employees on unpaid leave of absence do not accrue benefits but may choose to continue health insurance coverage by paying the designated premiums.

All full-time employees eligible for paid military leave shall also receive up to a maximum of 168 hours of paid military leave each time such eligible employee is called by the Governor of the State of Alabama to duty in the active service of the state. On receipt of orders, the employee will complete a Leave Request Form, attach a copy of the orders and submit to the Business Office designee.

All returning employees following Annual Training or other types of extended military leave of absence must adhere to the time limits depending on the duration of the orders as follows:

1. Service of 1 to 30 days: The beginning of the next regularly scheduled work period on the first full day following completion of service and exploration of an 8 –hour rest period following safe transportation home.
2. Service of 31 to 180 days: Application for reinstatement must be submitted not later than 14 days after completion of military duty.
3. Services of 181 or more days: Application for reinstatement must be submitted not later than 90 days after completion of military duty.

Employee's failure to return to work after 90 days of completion of military duty is subject to termination of employment. All employees returning from active duty must complete the check in process with the Office of Human Resources.

FAMILY AND MEDICAL LEAVE ACT – FMLA

The *Family and Medical Leave Act of 1993* entitles eligible employees to take up to twelve (12) weeks of unpaid, job-protected leave in a 12-month period for specified family and medical reasons. Designation of leave as FMLA leave must be made “up-front” whenever possible. Accrued sick leave must be exhausted before the employee is entitled to unpaid FMLA leave. Employees are not required to use personal or annual leave. Any sick leave accrued and used by an employee, who would qualify for FMLA leave, will count towards the twelve (12) weeks of unpaid FMLA leave available to the employee. Upon return from FMLA leave, an employee is entitled to be restored to the same job or to an equivalent job with equivalent pay, benefits and other terms and conditions of employment. In addition, an employee’s use of FMLA leave cannot result in the loss of any employment benefit that the employee earned or was entitled to before using FMLA leave.

To be eligible for FMLA benefits, a college employee must have been employed by the college for a total of 12 months from the date on which any FMLA leave is to begin and must have worked at least 1,250 hours over the previous 12 month period. The twelve (12) month period used to calculate eligibility and to be used as a “leave year” under the FMLA will be the same as that used by the college to determine annual and sick leave – September 1 through August 31.

Effective January 28, 2008, the Family Medical Leave Act (FMLA) has been extended to include military family leave. There are two changes to the FMLA:

1. **New Qualifying Reasons:** The College must provide 12 weeks of leave to eligible employees who have a spouse, parent, or child who has been called to active duty in the armed forces when they experience “any qualifying exigency”. In other words, active duty leave may be taken for issues related to the call to active duty status, and the leave may commence as soon as an individual receives notification of impending call to active duty status.
2. **New Leave Entitlement:** The college is required to provide up to 26 weeks of leave during a single 12-month period to eligible employees who are the spouse, parent, child or next of kin (Nearest blood relative) of a service member who is recovering from a serious illness or injury sustained in the line of duty on active duty. This military caregiver leave is available during a single 12 month period, during which an eligible employee is entitled to a combined total of 26 weeks of all types of FMLA leave.

Employees who wish to take leave under the FMLA are required to complete and return the appropriate forms to the Office of Human Resources. Forms and additional information pertaining to the *Family and Medical Leave Act* may be obtained from the Office of Human Resources or college intranet.

A maximum of three (3) emergency leave days with pay may be granted to full-time administrative and support personnel during an academic (September - August) year if, in the judgment of the President, it is essential that the employee be absent. Harassment of employees or students by nonemployees is also a violation of this policy. Any employee or student who becomes aware of any such harassment shall report the incident(s) to the Title IX Coordinator.

The employees of the College determine the ethical and moral tone for the College through both their personal conduct and their job performance. Therefore, each employee must be dedicated to the ideals of honor and integrity in all public and personal relationships. Relationships between College personnel of different ranks which involve partiality, preferential treatment, or the improper use of position shall be avoided. Consensual amorous relationships that might be appropriate in other circumstances are inappropriate when they occur between an instructor and any student for whom the instructor has responsibility, between any supervisor and an employee, or between a College employee and a student where preferential treatment results. Further, such relationships may have the effect of undermining the atmosphere of trust on which the educational process depends. Implicit in the idea of professionalism is the recognition by those in positions of authority that in their relationships with students or employees there is always an element of power. It is incumbent on those with authority not to abuse the power with which they are entrusted.

All personnel shall be aware that any amorous relationship (consensual or otherwise) or any otherwise inappropriate involvement with another employee or student makes them liable or formal action against them if a complaint is initiated by the aggrieved party in the relationship. Even when both parties have consented to the development of such a relationship, it is the supervisor in a supervisor-employee relationship, the faculty member in a faculty-student relationship, or the employee in an employee-student relationship who shall be held accountable for unprofessional behavior. This policy encourages faculty, students, and employees who believe that they have been the victims of discrimination or sexual harassment to contact the Title IX Coordinator at the institution. Any reprisals shall be reported immediately to the Title IX Coordinator or the Director of Human Resources.

Definition of Sexual Harassment

Sexual harassment is a form of sex discrimination which is illegal under Title VII of the

Civil Rights Act of 1964 for employees and under Title IX of the Education Amendments of 1972 for students. Sexual harassment does not generally refer to a single sexual joke, offensive epithet or request for a date. Instead, it is conduct and/or behavior of a sexual nature which rises to the nature that it interferes with the work or education of its victims and their co-workers or fellow students. Sexual harassment may involve the behavior of a person of either sex against a person of either sex.

Sexual harassment can be verbal, visual, or physical. It can be overt, as in the suggestions that a person could get a higher grade or a raise by submission to sexual advances. The suggestion or advance need not be direct or explicit; it can be implied from the conduct, circumstances, and relationship of the individuals involved. Sexual harassment can also consist of persistent, unwanted attempts to change a professional or educational relationship to a personal one. Sexual harassment is distinguished from consenting or welcome sexual relationships by the introduction of the elements of coercion; threat; unwelcome sexual advances; unwelcome requests for sexual favors; other unwelcome sexually explicit or suggestively written, verbal, or visual material; or unwelcome physical conduct of a sexual nature.

There are two kinds of sexual harassment; **Quid Pro Quo** and **Hostile Environment**. **Quid Pro Quo** describes a situation in which a student or employee is confronted with sexual demands to keep his or her job, or to obtain a promotion or raise, obtain a higher grade or educational benefit, and occurs when submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or educational opportunities, or when submission to or rejection of such conduct is used as the basis for employment or academic decisions affecting that individual. **Hostile Environment** typically involves sexually offensive conduct that makes it difficult or unpleasant for an employee or a student. It occurs when such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance, or creates an intimidating, hostile, or offensive work or educational environment. Examples of verbal or physical conduct prohibited within the definition of sexual harassment include, but are not limited to:

1. Physical assault or unwanted touching;
2. Direct or implied threats that submission to or rejection of requests for sexual favors will affect a term, condition, or privilege of employment or a student's academic status;

3. Direct propositions of a sexual activity;
4. Subtle pressure for sexual activity;
5. Repeated conduct intended to cause discomfort or humiliation, or both, that includes one or more of the following: (i) comments of a sexual nature or (ii) sexually explicit statements, questions, jokes, or anecdotes;
6. Repeated conduct that would cause discomfort and/or humiliate a reasonable person at whom the conduct was directed, including one or more of the following: (i) touching, patting, pinching, hugging, or brushing against another's body; (ii) commentary of a sexual nature about an individual's body or clothing; or (iii) remarks about sexual activity or speculations about previous sexual experience(s);
7. Intimidating or demeaning comments to persons of a particular sex, whether sexual or not;
8. Displaying objects or pictures which are sexual in nature and that would create a hostile or offensive employment or educational environment and serve no educational purpose related to the subject matter being addressed.

It is important to point out that the conduct should be judged from an objective standard in that the facts will be judged on the basis of what is reasonable to persons of ordinary sensitivity and not on the particular sensitivity or reaction of a specific individual. All students and employees should report any harassment and/or discrimination that he/she may experience and/or observe. No student or employee should assume that an official of the College knows about his or her particular situation.

Resolution of Harassment and Discrimination Complaints Procedure for Reporting Complaints

1. Any member of the College community who believes that he or she has been the victim of sexual harassment or illegal discrimination should immediately bring the matter to the attention of the Title IX Coordinator to coordinate the investigation of such complaints. Upon receipt of the complaint, the appropriate designee shall meet and interview the complainant. During this initial meeting, in addition to gathering the additional information needed to initiate an investigation into the complaint, the appropriate designee shall explain the procedure and shall present a copy of this Harassment and Discrimination Policy. The President and

the Vice Chancellor for Legal and Human Resources of the Alabama Department of Postsecondary Education shall be promptly notified of the complaint.

2. The complainant should present the complaint as promptly as possible after the alleged sexual harassment or discrimination occurs, preferably within six (6) months of the incident. The complainant should submit a written statement of the allegations.
3. It is the intention of this policy to resolve complaints of sexual harassment and illegal discrimination as promptly as possible after the complaint and/or report is made. All complaints and/or reports will be investigated and resolved within forty-five (45) days of receipt; except in extraordinary cases that require more time for completion of the investigation. Both the complainant and alleged offender shall be given periodical updates as to the status of the investigation.
4. The investigation record shall consist of formal and/or informal statements from the alleged victim, the alleged offender, witnesses identified by the victim or offender, and others deemed by the investigator to have pertinent knowledge of the facts involved in the complaint. All witnesses who provide relevant information should submit a written, signed statement attesting to their knowledge of the incident. The investigation will afford the accused a full opportunity to respond to the allegations.
5. Complaints may be resolved through informal or formal procedures. Informal means are encouraged at the beginning point, but the choice of where to begin rests with the complainant. If the Title IX Coordinator believes that the matter is sufficiently grave because of the nature of the alleged offense, or because the complainant seeks to have a sanction imposed, then formal procedures shall be initiated.

Informal Procedures

1. The complainant may, if he or she chooses, attempt to resolve the matter directly with the alleged offender and report to the Title IX Coordinator. However, if the complainant does not feel safe in confronting the alleged offender concerning the behavior or if the behavior does not stop, he/she shall immediately report such to the Title IX Coordinator.

2. The Title IX Coordinator may notify the alleged offender of the complaint and take whatever steps deemed appropriate to affect an informal resolution that is acceptable to both parties. The informal action stage will last no more than fifteen (15) days, unless extended by the consent and agreement of the complainant.
3. The parties may choose to participate in mediation. If the complaint is resolved informally, no record of the complaint will be entered in the alleged offender's personnel file or student record. However, the Title IX Coordinator will keep a record of the complaint and the resolution. A copy of the record will be forwarded to the President. All such records will remain confidential.
4. If the results of the investigation and informal resolution of the complaint are accepted by the alleged victim and he or she desires no further action against the alleged offender, then the complainant will sign a statement requesting that no further action be taken. The alleged offender will receive a statement explaining the resolution of the investigation as conducted under this policy and procedure and will sign a statement documenting his or her understanding of the resolution.
5. Some reports of sexual harassment and discrimination may not be appropriate for informal resolution and may require a formal investigation at the discretion of the Title IX Coordinator. Substantial weight will be given to the wishes of the complainant when determining whether to investigate a complaint; however, Trenholm State may investigate a complaint without the complainant's and/or alleged victim's consent when circumstances so warrant.

Formal Action

If the complaint cannot be resolved on an informal basis within fifteen (15) days or such extended time as agreed to by the complainant, the complainant may file or pursue a formal complaint. Each complainant has the right to proceed with or withdraw from the formal complaint procedure once it has been submitted. The issues involved in the complaint should not be changed once the charge has been made. However, administrative procedures may be revised to accommodate issues arising during the investigation which were not known to the complainant or the institution when the initial complaint was filed.

1. If the formal complaint is against an employee of the College, it shall remain with the Title IX Coordinator for investigation and disposition pursuant to applicable law and grievance/discipline procedures.
2. If the formal complaint is against a student, not acting in an instructional or other employment capacity, the Dean of Students shall refer complaint to the Title IX Coordinator for disposition pursuant to applicable law and grievance/discipline procedures.
3. If the formal complaint is against a person not considered an employee or student of the College, it shall be directed to the Title IX Coordinator and Assistant Dean for IT and Campus Safety and Security for disposition pursuant to applicable law and grievance/discipline procedures.
4. If conflicts or other problems exist with the Title IX Coordinator handling the formal complaint, the complaint may be filed with the President.
5. In the event of complaints against employees and/or students, the Title IX Coordinator will notify the alleged offender in writing of the complainant's decision to take formal action. Formal action will consist of the Title IX procedures as set forth:
 - a. The original and two copies of Grievance Form A must be filed with the Title IX Coordinator within 30 calendar days following the date of the alleged violation(s). The alleged violation(s) must be clearly and specifically stated. Complainant is advised to keep a copy of all forms.
 - b. The Title IX Coordinator will conduct whatever inquiry he/she deems necessary and will arrange conferences with the complainant, the alleged offender, and any other appropriate persons. The investigation will afford the accused an opportunity to respond to the allegations and offer any witnesses or evidence which are relevant to the resolution of the complaint. The Title IX Coordinator will make a record of the case, including a record of their decision, and a copy of that record will be retained in its confidential files. Within forty-five (45) days following the receipt of Grievance Form A, the Title IX Coordinator shall notify

the complainant and the alleged offender of the outcome of the investigation; however, that information should be treated by both parties as confidential and private. Said notification shall be mailed to his/her home address by certified mail, return receipt requested.

- c. Within fifteen (15) calendar days following receipt of the findings, a complainant or accused not satisfied with the resolution achieved by the formal procedures may seek an appeal by the completion and submission of Form B with the Title IX Coordinator and the President. If a notice of appeal is filed, appeal Form B must be used. Complainant must state clearly and specifically on Form B the objections to the findings and/or decision. Copies of Form B must be provided to the Title IX Coordinator and the President. If complainant fails to file notice of appeal by the end of the 15th calendar day following receipt of the findings, the right to further appeal will be forfeited.
- d. The President will have 30 calendar days following date of receipt of complainant's notice of appeal to investigate and study complainant's allegations and the written report of findings to complainant. At the completion of the President's review, the complainant and alleged offender shall be provided with a written report and disposition. Said notice shall be mailed to his/her home address by certified mail, return receipt requested. In addition, a copy of the written report and disposition shall be provided to the Title IX Coordinator and President.
- e. An alleged offender not satisfied with the resolution achieved by the formal procedures may seek an appeal by the completion and submission of Form C with the Title IX Coordinator and the Chancellor. If notice of appeal is filed, appeal Form C must be used. Complainant must state clearly and specifically on Form C the objections to the findings and/or decisions of the President. Copies of Form C must be provided to the Title IX Coordinator and the Chancellor. If complainant fails to file notice of appeal by the end of the 15th calendar day following receipt of the President's

report, the right to further appeal will be forfeited. If the last day for filing notice of appeal falls on either a Saturday, Sunday or a legal holiday, complainant will have until the close of the first business day following the 15th calendar day to appeal.

- f. The Chancellor will have 30 calendar days following the date of receipt of complainant's notice of appeal to investigate, study complainant's allegations and the report of the President, hold a formal hearing, and make a written report of findings to the complainant. At the completion of the Chancellor's review, the complainant and alleged offender shall be provided with a written report and disposition. Said notice shall be mailed to his/her home address by certified mail, return receipt requested. A copy of the report and disposition shall be provided to the Title IX Coordinator. The decision of the Chancellor shall be final and binding upon all parties involved.

Sexual Harassment Training

The Director of Human Resources shall review the Sexual Harassment & Discrimination Policy and coordinate annual harassment training workshops and recommend changes to the President.

Confidentiality and Assurance Against Retaliation

Every effort possible shall be made to ensure confidentiality of information received as part of an investigation. Complaints will be handled on a "need to know" basis with a view toward protecting the interest of all parties involved. The College will do everything consistent with enforcement of this policy and with the law to protect the privacy of all parties involved and to ensure that all involved are treated fairly.

This policy seeks to encourage students, faculty, and other employees to express freely, responsibly, and in an orderly way, opinions and feelings about any problem or complaint of sexual harassment and discrimination. An employee or student bringing a complaint or assisting in investigating a complaint will not be adversely affected in terms of conditions of employment or enrollment, including any act of reprisal, including internal interference, coercion, and restraint, by a Trenholm State employee or by one acting on behalf of Trenholm State.

Retaliation against a student or employee for bringing a sexual harassment or discrimination complaint is strictly prohibited. Retaliation is itself a violation of this policy and may be grounds for disciplinary action.

Disciplinary Sanction

A conclusion that sexual harassment and discrimination has occurred shall subject the offender to appropriate disciplinary action and may result in, but not be limited to, his/her suspension, discharge, expulsion, or dismissal.

It is the intent of this policy to provide for a prompt and thorough investigation of any complaints. The time limits set forth within these guidelines are subject to change as needed to ensure a satisfactory conclusion to the investigation.

STUDENT CONDUCT

Each employee of the College is expected to help enforce the policies of the College. Entrance into a public postsecondary institution is voluntary. Upon admission to this institution, the student has the obligation to adhere to the standards established by the College as long as there is no conflict with his or her legal rights.

H. Councill Trenholm State Technical College expects students to conduct themselves in a manner compatible with the lawful mission of this tax-supported college. The College prohibits any disruptive or disorderly conduct which interferes with the rights and opportunities of those who attend this institution for the purpose for which the College exists—the right to utilize and enjoy facilities provided to obtain an education. Specific forms of prohibited conduct include the following:

- Dishonesty, such as cheating, plagiarism, or knowingly furnishing false information to the College;
- Conduct in violation of federal, state, or local law;
- Destruction or theft of property;
- Obstruction or disruption of the College's academic program or operations;
- Failure to comply with directions of college officials acting in performance of their duties;
- On-campus possession of dangerous weapons or firearms;

- The presence, sale, consumption or use, and/or being under the influence of alcoholic beverages and/or illegal drugs at H. Councill Trenholm State Technical College;
- Gambling in any form;
- Any violation of the rules and regulations of the College.
- Violation of the acceptable use policy for Internet access and technology use.

Violations of the above will render a student subject to disciplinary action, which provides for adequate notice and a fair hearing. Penalties for violations include reprimand, restitution, probation, suspension, and expulsion.

When there has been a serious violation of college regulations and a student's continued presence might materially threaten the welfare of the College, the President or his designated representative may immediately suspend the student, pending a formal hearing by the H. Councill Trenholm State Technical College Student Disciplinary Hearing Committee. Such suspension shall be interim, and the student shall be entitled to a hearing at the earliest possible time.

ACADEMIC HONESTY

The primary goal of H. Councill Trenholm Technical College is the promotion of an atmosphere conducive to studying and learning. Those conditions and actions, which encourage scholarship, are applauded; those conditions and actions, which deter or discourage intellectual growth and development, are deplored. Therefore, academic dishonesty is defined as follows:

1. Cheating on an exercise, test, problem, practice or examination submitted by a student to meet course requirements. Cheating includes, but is not limited to: the use of unauthorized aids (such as crib sheets, written materials, drawings, etc.); copying from another student's work; soliciting, giving and/or receiving unauthorized aid orally or in writing; or similar action contrary to the principles of academic honesty.
2. Plagiarism on an assigned paper, theme, report or other material submitted to meet course requirements. Plagiarism is the act of using, in one's own work, the work of another without indicating that source.
3. Use of texts or papers prepared by commercial or non-commercial agents and submitted as a student's own work.

Charges of academic dishonesty made against a student by a faculty member must follow

the principles of due process. Faculty members must bring charges against a student in writing. The grade “F” or any punitive punishment for academic dishonesty shall not be given by a faculty member unless guilt is established through the due process procedure.

ACADEMIC FREEDOM

H. Councill Trenholm State Technical College seeks to provide an atmosphere where students can make open and honest intellectual inquiry into any college matter appropriate for student participation. The student is free to express dissent to any college matter within the limits of good taste.

COPYRIGHT, TRADEMARK OR PATENT OWNERSHIP

Copyrighted or trademarked material or patented inventions developed totally or partially on college time with the use of college materials or facilities or with college funding shall be owned by the college.

The Digital Millennium Copyright Act (DMCA) and Peer-to-Peer File Sharing Policy

Copying, distributing, and downloading copyrighted materials, including music, videos, and games for which you do not have the owner's (copyright holder's) permission are a violation of federal law. Compliance with federal copyright law is expected of all students, faculty, and staff. If you download and/or distribute unauthorized copies of copyrighted music recordings and movies, you are breaking the law and may be held legally liable for thousands of dollars in damages. Federal law provides severe penalties for the unauthorized reproduction, distribution, or digital transmission of copyrighted materials. The FBI investigates allegations of criminal copyright infringement and violators are prosecuted.

Alleged Repeat Offenders-Students: The process for student alleged "repeat offenders", i.e. for students who are the subjects of more than one DMCA notice, is to file charges with the college's Student Services organization for prosecution as student misconduct. An additional procedure for alleged employee repeat offenders is that his/her department head will be informed that the complaint is not the first one. Faculty shall report any violations of this policy to the Dean of Student Services for disciplinary actions under student misconduct.

Alleged Repeat Offenders-Faculty/Staff: The process for faculty/staff alleged "repeat offenders", i.e. for faculty/staff who are the subjects of more than one DMCA notice, is to

remove permanently access to the Internet and other disciplinary actions as determined by the individual's supervisor, Dean and President as deemed appropriate.

Faculty, staff, students and affiliates utilizing college infrastructure must comply with U.S. copyright laws. The college reserves the right to remove or limit access to material posted on college-owned computers if it is alleged that U.S. copyright laws have been violated. If the college determines that U.S. copyright laws have in fact been violated, the infringing material will be permanently removed.

The Information Technology division shall periodically monitor the college network for violations of this policy and report findings to the appropriate Dean.

INTERNET ACCESS

Internet access is provided on campus for college employees and students to use for college business. Further guidance can be found on the college Intranet under Publications/Computer Acceptable Use Policy.

BUSINESS OFFICE

Business Office procedures can be found in the Fiscal Procedures Manual located on the college intranet.

CONFLICT OF INTEREST

No employee or officer of H. Council Trenholm State Technical College shall have financial interest directly or indirectly in the purchase of or contract for property or contractual service or make any violation of the contract provisions. Any person involved in any violation shall be subject to disciplinary action.
